highly regarded herds  
in the middlewest*

Rosa B. Thorne

# **SHORTHORN SALE**

**Thursday, Oct. 19, 1967**

12:30 p.m. — Effingham, Kansas

A few of the good, rugged, high quality Thorne cows selling in this dispersion.

ROSA B. THORNE  
SHORTHORN DISPERSION  
THURSDAY, OCTOBER 19

Sale Barn

Effingham, Kansas

115 HEAD SELL AS 84 LOTS

Here's quality enough to make any trip worthwhile . . . quantity enough to insure bargains. Mrs. Thorne and her brother, Warren Beese, will be glad to show you the cattle any time prior to the sale at the farm located  $2\frac{1}{2}$  miles south,  $\frac{1}{2}$  mile east and  $\frac{1}{2}$  mile north of Lancaster, Kansas.

# GENERAL INFORMATION

**TIME**—The sale will be held Thursday, October 19th. The auction gets under way at 12:00 noon D.S.T.

**LOCATION**—The sale will be held at the modern Effingham Auction Barn located at the northwest corner of Effingham, Kansas. Effingham is located on Hwy. 159 and is approximately 40 miles north of Topeka, Kans., and 40 miles southwest of St. Joseph, Missouri, and less than 150 miles south of Omaha, Nebraska.

**TERMS**—The terms of this sale are cash.

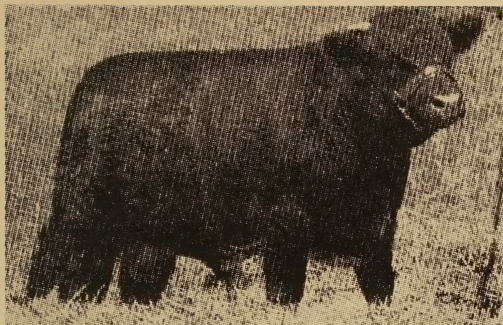

**GUARANTEE**—All bulls will sell under the Standard Guarantee endorsed by the American Shorthorn Association. Females will not be guaranteed since this is a dispersion. The breeding ability of most are obvious since so many sell with calves at foot or are obviously in calf.

**HEALTH**—All cattle will be T.B. and Bang's tested and official calfhood vaccination for Bang's has always been practiced. All cattle are guaranteed to comply with the health regulations of any state or country into which they may go.

**LIABILITY**—Each transaction in this sale will constitute a contract between the buyer and seller of each lot. The auctioneers, ringmen or sale manager have been employed by the consignor for specific tasks not connected with the handling of the cattle or the condition of the premises. They will accept no liability, legal or otherwise, for the buying contract or for any accident. Neither can the seller accept any liability for injuries that may occur. All persons attend this sale at their own risk.

**BIDS**—Those wishing to buy, who cannot be present, may leave, or send their bids to the sale manager, Bill Stunkel, 1228 N. Nye Ave., Fremont, Nebr.; Ted Aegerter, the American Shorthorn Association, 8288 Hascall Street, Omaha, Nebr.; Mike Wilson, Kansas Farmer, Topeka; Dwayne Dietz, The Drovers Journal, Kansas City; Willis Huston, Kansas Stockman; auctioneers Dick Kane, Wisner, Nebraska, and Wilson Hawks, Effingham, Kansas.

**LUNCH**—Will be served at the sale barn.

**VON-BER-MAR MASTER-STROKE.** By Glamis Masterstroke. One of the good bulls used in the Thorne herd. Several of his daughters sell.

## A Herd Is Known By The Sires It Uses...

Measure the success of any herd and you will soon find that those who have made a concerted effort to use the best sires possible are the ones who have contributed most to the success of our breed. The Thorne herd has used many top sires . . . .

**DIVIDE OLYMPIC**—By Duke of Killearn.

**SNI-A-BAR-RANDOM-MERCURY**—By Edellyn Campeon Mercury. This is the bull that produced the \$10,000 Mercury's Jasper 2nd. The Mercury breeding is again assuming greater importance in the breed as more herds wish to infuse the size and easy fleshing qualities of this great strain.

**SULTAN CLANSMAN**—By the International grand champion, Sultan Brown-dale.

**RANNOCH MEMORY**—By Pittodrie Fortune. Memory was purchased from Tommy Hamilton, 1954 Calgary Bull Sale, where he was a top seller at \$3,000. His dam, Maxine Duchess by the great Killearn Max 5th, was regarded as one of the great females ever produced in the Gallinger Herd. This was a modern type bull . . . lots of scale, thickness and substance.

**BRAEDON QUICKSILVER**—One of the first sons of the famous show and breeding bull, Kilburnie Augusta Ransom that was grand champion of the 1954 Canadian National; reserve champion at the Royal Winter Fair; first-prize two-year-old, reserve senior champion and top-selling bull, 1954 International.

**LEVELDALE CERTIFIED**—Purchased in the 1958 Leveldale Sale. By Uppermill Alert and a grandson of Cruggleton Pentland Firth, sire of Beaufort Bulldozer. His dam was a top, young Cromleybank cow, a grand daughter of Kirkton Formula.

**VON BER MAR MASTERSTROKE**—The first son of Glamis Masterstroke by the noted Kair Masterkey, 1956 Perth Reserve supreme champion that sold for \$16,800. Kair Masterkey sired the 1958 and 1959 Perth reserve group of three and five bulls and the 1959 reserve pair of females. He also sired the cows that produced the 1961 supreme champion and reserve supreme champion bulls as well as the 1962 Perth supreme champion bull, Glamis Benefactor, now owned by KC Shorthorn Farms, Kansas City. The dam of Masterstroke is out of a daughter of the champion female of the 1956 Iowa Royal and is a granddaughter of the noted Calrossie Armada.

**DM BONANZA'S BASIS**—He sells in this sale. He was 1964 Omaha sale reserve champion where he was purchased for \$1,650. His sire, DM Bonanza 2nd, was 1959 Nebraska State Fair grand champion. The 2nd sired DM Bonanza's Leader, 1964 Nebraska State Fair grand champion that sired this year's reserve grand champion female, Nebraska State Fair, and champion female, Ak-Sar-Ben Junior Show for Dr. Norman Kruse & Sons, Genoa, Nebr. Bonanza's Basis is out of a great Arnold & Brooks cow, Broadhooks Princess B 5th, that is also the dam of DM Napoleon's Basis, 1962 Nebraska State Fair grand champion and one of the good sires currently in use, now in the Otley Shorthorn Herd, Lincoln, with an interest retained by Dan McCubbin, Gretna, Nebr. Don't forget DM Bonanza's Basis goes back to the great Leveldale Basis, International grand champion, sire of International grand champions and one of the all-time great sires of the breed.

## The Sale Manager Says . . .

The Thorne herd was established in 1923 and has been one of the fine herds of our breed. While Rosa Thorne has not exposed her productions at shows and sales in recent years, nonetheless this herd still has one of the all-time great records for showing champions and top-sellers at Mid-Kansas and other state sponsored sales.

Herds of this type are the backbone of our breed. Those not acquainted with it will be amazed at the quality of the producing cows in this herd. Most of the herd was dispersed in 1963 but the size of this 1967 dispersal offering demonstrates the herd's prolificness.

Because Rosa Thorne and her brother, Warren Beese, find it increasingly difficult to care for this herd during the winter, it has been decided that a dispersion would be advantageous. The loss of this reputation herd can mean OPPORTUNITIES FOR YOU. Many top cattlemen from over a wide area will tell you that the Thorne Shorthorns have done a great job for them.

Since the older cows are all horn branded, we have catalogued them so that their horn brands coincide with their lot numbers.

**RT WONDER**—An impressive, young junior herd sire by the sire of many Kansas and National Western prize winners, MSU Wonder 5th. The size and ruggedness of the Wonders have won many friends and influenced Louada Farms, Peterborough, Ontario, to buy an interest in the "5th". The sons they had by him made a big impression at the last International where one, Louada Fokine, was reserve grand champion and is now in service at Andes Bros., Mound City, Mo. If you are interested in the Wonder bloodline, here is a young bull that will appeal to you.

# A CHALLENGE

It has been predicted by 1980 that the U.S. population will be about 230,000,000 people consuming an average of 120 lbs. of beef per person. This will require over 27 billion pounds of beef which is about 42 percent more than was consumed in the U.S. in 1966.

Our historical dependence on western sources (range areas) for feeder cattle is changing. New feedlot operations in range areas are now depleting some of the cornbelt's dependable sources for calves. This means that cornbelt farmers are going to have to produce more of the feeder cattle required. The actual investment in land to carry each cow unit is less in much of the Middle West than it is in the range area. For example, two or three acres of land in southern Iowa will carry a cow-calf unit when managed properly according to Dr. H. L. Self, Iowa State University. This amounts to a \$500 to \$600 investment in land. The cost of enough acreage to carry a cow-calf unit in the range states is usually greater.

This all means a great opportunity for the cow owner in Kansas, Missouri, Iowa and other plains states. The market for our beef is growing. We need more farmers producing calves on their marginal acres. Economists predict it will be a paying proposition.

You can buy "extra" profit cows in this sale.

---
